APRIL MMXXII

A magazine of art for art's sake, and for the fuck of it.

Another random collection of the endless logs-on-the-fire images that have been previously (or will be) shoveled into the gaping maw of Social Media World®. You post your magnum opus, get a few likes, and then... what's next?! Feed me! Nothing needs to be great, just more. More, more, more, moremoremore... No chance to admire anything at all, scroll to the next, then the next, next, next, ad infinitum. It's just a ravenous churning of content. Fucking tiresome. Logs on the fire. NEXT!!!
